Proizvođač: Shure

Cena: 16.680,00 rsd

**Shure SM58 L
vocals**

e for

The frequency response of the SM58 capsule, with its pronounced mids and bass rolloff, is perfectly tuned for vocals. The **cardioid polar pattern** provides an isolated sound source and reduced background noise. The integrated, air-cushioned shock absorber minimises handling noises very efficiently, while the **integrated wind and pop protection** prevents unwanted explosive sounds or airborne noise from reaching the capsule. Legendary quality, robustness and reliability.

Features:

Manufacturer: Shure
Capsule Type: Dynamic
Polar Pattern: Cardioid
Design: Hand Microphone
On/Off Switch: No
Frequency Range from (Hz): 50
Frequency Range to (Hz): 15000
Battery Power: No
Shotgun Microphone: No
Switchable Pad: No
Switchable Low Cut: No
incl. Clamp: Yes
incl. Thread Reducer: Yes
incl. Microphone Bag: Yes
incl. Cable: No
