Cena: 5.400,00 rsd

PS418D

Pre-Amplifier

The condenser miniature microphones, for example, PRA383, E308, PRA30, and WU518, need phantom power to work. The PS418D is just what they need. It can be powered by phantom power or battery, and switchable low cut filter helps to reduce low band noise.

- Two options for Power Requirements: phantom or battery
- Low-cut filter switch
- Transistor output transformer circuit

Frequency Response: 25-20,000 Hz

Output Impedance: phantom 200Ω; battery 270Ω

Min. Load Impedance : 1000Ω

Power Requirements: phantom 9-52VDC 2mA; battery 1.5V AA/UM3

Low Frequency Filter: 80Hz @ 12dB / oct

Connector: TA3M (input), XLR3M (output)

Dimension(WxHxD): 63X84X22.5mm (2.48"x3.3"x0.89")

Net weight: 245g (9.9oz)

Packaging: white box
