

SVS SoundPath Subwoofer Isolation System (4 foot)

SVS SoundPath Subwoofer Isolation System (4 foot)

Šifra: 12822
Kategorija proizvoda: Hi-Fi Subwooferi
Proizvođač: SVS

Cena: **9.000,00** rsd

How Does De-coupling Improve Performance?

Decoupling is making the interaction between a subwoofer and floor so weak that virtually no energy is transferred between them. The SVS SoundPath Subwoofer Isolation System features rigorously tested optimized durometer elastomer feet that significantly reduces the transmission of subwoofer energy through your floor and walls. This allows low frequency effects to be transferred through the air where they can be felt, resulting in tighter and cleaner sounding bass, no more distracting buzz or rattle from the room, and better sonic clarity and dynamics.

Be A Better Neighbor

Infrasonic jolts and subterranean levels of bass bring our entertainment to life, but they can also disturb neighbors and roommates because the longer, low frequency sound waves travel more effortlessly through walls and floors than mid-range and high frequency waves. It's the reason your neighbor can hear a helicopter descending much louder than glass breaking. The SVS SoundPath Isolation System drastically reduces the bass notes and low frequency vibrations your neighbors and roommates will notice.

A Discreet, Affordable Alternative To Subwoofer Platforms And Risers

The SVS SoundPath Subwoofer Isolation System feet come in a variety of thread sizes that easily screw into any subwoofer's existing threaded inserts and subtly elevate the sub enclosure on a cushion of elastomer encased in stainless steel. The understated feet are a stylish, more effective alternative to bulky risers and platforms, at a fraction of the cost and also work with some turntables and other components.

Materials Of Construction:

Durable Anodized Steel Outer Shell
Elastomer Foot with Optimized Durometer
Stainless Steel Machine Screws
Subwoofer Isolation Feet Dimensions:

Overall Height: 40 mm
Shell Diameter: 58 mm
Foot Diameter: 53 mm
Screw Engagement Depth: 9mm (applies to 16mm length screws)

Package Contents:

4 Foot System:

Four (4) SoundPath Isolation Elastomer Feet with Steel Outer Shell

Four (4) ¼-20 x 16 mm screws

Four (4) M6 x 16 mm screws

Four (4) M8 x 16 mm screws

4 Foot Compatibility
