Product Details

Celestion TF0615 6" 100 Watt Professional Woofer Driver 8 Ohm

The versatile Celestion TF0615 6" driver offers excellent performance when used in bass and dedicated midrange applications. Its 1.5" copper voice coil is set onto a polyimide former, which assures good long-term resistance to the detrimental effects of extreme high temperatures.

A cloth sealed surround is combined with an optimized Kevlar-loaded paper cone, to ensure the speaker's frequency response is smooth and extended. An intelligent heat vented motor assembly enhances cooling, and a rigid chassis design for maximum energy transfer.
