Dynamic micro

nents

The perfect balance between rounded, powerful sound and excellent suitability for the stage make the well-designed TG I50d a very versatile microphone.

Whether with electric guitar or bass amplifiers, snare drums or brass instruments, this dynamic instrumental microphone demonstrates notable feedback reduction even on the loudest rock-and-roll stages. Extreme EQ settings at the mixing console are not necessary with the TG I50d: plug it in, activate the high-pass filter if needed and then smile.

SCT:

Enhanced space behind the diaphragm for improved bass reproduction

Treble resonator for optimal high-frequency reproduction

Special sound holes for a frequency-independent polar pattern
