### Why Wharfedale

**Britain's most famoust loudspeakers**

**Over 80 years of innovation (Est. 1932)**

**One**

The new range of SW subwoofers from Wharfedale comes with a host of new features.

They feature Non-pressed paper cones for increase self-damping, improved transient impact. Wharfedale engineers also improved structural integrity of the cone itself. Centre vents are copper lined to reduce magnetic distortion and improve heat dissipation in the driver for even greater reliability.

The newly designed amplifier modules used in SW subwoofers are solid and diligently engineered. These new amplifier designs used in the SW series are optimised for high impact at low frequencies and are ideal for both movies and music.

Available with either a BLack or White finish these new Wharfedale subwoofers will fit into most environments, and are designed to complement both with bookshelf or floor standing speakers and even satellite spekaer systems.
