Product description

The APart E-VOLST is a stereo volume control that can handle up to 2 x 40 watt in 4 ohm.

It can be used with a standard HiFi amplifier to adjust the loudspeaker volume. It is very durable due to the step by step attenuation in 10 steps.

The E-VOLST is build on a universal chassis that can easily be integrated with Gira, Jung and Euro.

Different cover plates are available for the UK market
