Cena: 155.880,00 rsd

The
**Pro
 Tools
 Dock**
 from
Avid
 is an

ergonomic EUCO... g the
 company's free Pro Tools Control app on an iPad (*iPad not included*). The Dock is based on the touchscreen workflows found on the Master Touch Module of the flagship Pro Tools S6 controller. The Dock's hybrid approach features a physical fader, knobs, and switches in conjunction with touchscreen technology for executing fast navigation, metering, and on-screen plug-in control. And when the Dock is paired with the *optional* Pro Tools S3, the user gains enhanced functionality with the dedicated automation switches, transport controls, weighted aluminum jog wheel, color-coded Soft Key switches, and more.

Channel strips/faders	1 "attention" channel with a touch-sensitive, motorized fader
Encoders	9 total—8 push-top, touch-sensitive channel control encoders; 1 monitoring control encoder
Metering	1 10-segment meter with pre- and post-fade metering options
Navigation	Jog wheel with full transport control section
Additional controls	32 hardware buttons for various mode selection functions, 2 programmable touch strips, 16 programmable Soft Keys
Ancillary I/O	1 USB 2.0 port (for tablet charging), 1 footswitch port (1/4-inch TRS), 1 Ethernet port, Kensington lock slot
Height (front, rear w/knobs)	1 inch, 5.4 inches (2.7 cm, 13.8 cm)
Width	13.9 inches (35.2 cm)
Depth	14.1 inches (35.9 cm)
Weight	4.2 lbs (1.9 kg)
