MARTIN AUDIO CDD12B - Nazidni zvučnik

Šifra: 14935 Kategorija prozivoda: Nazidni Zvučnici Proizvođač: Martin Audio

Cena: 155.880,00 rsd

MARTIN AUDIOLGDDDDDBMnNazidni zvučnik

Features

Compact, CDD[™] passive two-way system Coaxial Differential Dispersion[™] technology Elegant birch plywood enclosure User-rotatable coaxial drive unit Vertical and horizontal mounting options Screw-free perforated steel grille 8Ω nominal impedance Discreet mounting accessories Integral inserts for eyebolt suspension Black or white standard colour options

Applications

Live Music Clubs and Bars Nightclubs Bars and Restaurants Museums and AV Spaces Convention Centres Hotels Retail Outlets Leisure Centres Houses of Worship

The Coaxial Differential Dispersion technology employed in the CDD12 delivers more consistent audience coverage than systems with fixed X° x Y° coverage patterns — projecting relatively more output to the rear of the audience, while having wide horizontal coverage close-up. Its innovative CDD driver achieves 'point source' summation of the LF and HF sections — eliminating off-axis variations in frequency response associated with non-coaxial designs. Improving on conventional coaxial designs, which can suffer from high-frequency beaming, the driver features a static waveguide that merges seamlessly with the unique cone shape — maintaining the dispersion pattern out to very high frequencies.

The LF driver has a 2.5" (65mm) voice coil and efficient motor with an aluminium demodulating ring to minimise distortion, while the HF driver utilises a 1.75" (44mm) polyimide diaphragm and features a low-compression phase-plug to reduce non-linearity.

The visually-distinctive birch plywood enclosure can be used in either horizontal (landscape) or vertical (portrait) orientation, with rotation of the driver easily accomplished by removing the screw-free, protective grille. The curved shape of the CDD12 allows it to be surface-mounted close to a wall via an optional wall bracket or suspended from a ceiling by eyebolts or a horizontal yoke option.

Finished in black (RAL9005) or white (RAL9016) as standard, the CDD12 can be supplied in any RAL colour to order.

A full-range, passive two-way system, the CDD12 should be used with a compatible controller with appropriate limiter settings to provide system protection.

When used with the DX4.0 controller or an iKON amplifier, there now enhanced DSP and FIR based pre-sets to deliver the absolute maximum performance and fidelity while limiter settings protect the integrity of the system.
