MACKIE Thump18S - Aktivni vufer

Šifra: 15461

Kategorija proizvoda: Aktivni Subwooferi

Proizvođač: MACKIE

Cena: **82.680,00** rsd

Featuring a built-in crossover at 140 Hz, stereo high-pass outputs, and full-range outputs, the Thump18S allows you to connect top speakers and additional subwoofers without any extra hardware. Using efficient Class-D amplification and a dynamic bass frequency response, the speaker is designed to deliver a clear and present low end at any volume.

Features:

- Professional band-pass design for maximum output and deep, room-filling lows

- 18" custom high-output woofer

- Class-D amplification designed for cool running

- Precision 140 Hz crossover

- Tuning filters deliver highly accurate bass response

- Robust system protection

- Dual XLR inputs for mono or stereo applications

- Stereo high-pass outputs optimize sound when connecting top boxes

- Stereo full-range outputs perfect for adding more subwoofers

- User-adjustable level and polarity controls

- Easily mount your full-range loudspeaker via pole cup
