MMCX connectors allow the shielded braided cable to be detached for easy storage or replacement. Accessories supplied with the MP-220 include foam, silicone, and double-flange eartips in multiple sizes, a gold-plated 3.5mm to 1/4" adapter, and a molded hard carry case.

### Sound Isolation and Comfort

Ergonomically molded low-profile enclosure offers enhanced comfort, sound isolation, and bass response

### Balanced Drivers

Specially selected dynamic drivers offer a balance of vocal clarity and ample low-end for optimal performance on stage

### Detachable Cable

The detachable cable is equipped with swiveling MMCX connectors for easy wearing and replacing

## **High-Fidelity Performance**

The audiophile-grade cable is internally braided and features an outer shielding for enhanced durability and sonic performance

## **Optimal Fit**

With three different types of eartips included and in three different sizes each, you can choose what works best for your ears

## **Durable Hard Case**

Protect your investment with the included molded hard carrying case, which comes with a handy clip for securely attaching it to a backpack
