

PRO-JECT Acryl it

Šifra: 15525

Kategorija proizvoda: Gramofoni i oprema

Proizvođač: Pro-Ject

Cena: **15.480,00** rsd

Upgrade your Debut or 1Xpression turntable to „Esprit“-standards. Acryl it is made from acrylic with satinised surface and brings a more liquid sound that leaves no space for platter resonances.

The change is easily made: just exchange your metal platter for Acryl it. Unlike metal platters, where you will need to place a felt mat between record and platter to damp metal resonance, you can put your record directly on the acrylic surface, with nothing in between. Acryl it is able to improve overall performance significantly!

Features

Suitable for Debut and 1Xpression turntables

Substitutes metal platter

Inert material avoids resonances

Dent for label implemented

Ideal for use with Clamp it

Audiophile sound tuning

Optical upvaluation

Material	acrylic with satined surface
Diameter	300 mm
Height	20 mm
Weight	930 g net
