

MACKIE CR3-X Studio Bundle - Studio paket

Šifra: 16036
Kategorija proizvoda: Studio Paketi
Proizvođač: MACKIE

Cena: 56.280,00 rsd

Getting set up is easy with the Big Knob Studio as your central hub. Connect it to your computer via USB, plug the microphones into the Big Knob Studio's XLR inputs, and hook up the monitors and headphones to the Big Knob Studio's outputs. Record vocals and instruments at up to 24-bit / 192 kHz resolution, easily control essential monitoring functions such as volume, dim, mute, and stereo/mono switching, and use the included software bundle to create quality mixes in the comfort of your own home.

Mackie CR3-X Creative Reference Series 3" Multimedia Monitors (Pair, Green)

Music producers, audio engineers, and DJs looking for high-quality studio monitors will be impressed with the green Mackie CR3-X, a pair of Creative Reference Series 3" multimedia monitors offering a compact solution for quality audio playback in home studios and gaming setups. With 50W of amplification driving 3" woofers and 0.75" tweeters, the CR3-X monitors work well, whether you're creating content or casually enjoying some tunes.

The pair consists of one passive speaker and one powered speaker that connect with an included speaker cable. Each monitor incorporates a custom-tuned rear port to smoothly extend the low end, and a specially designed waveguide for clarity and proper dispersion of high frequencies.

With plenty of I/O provided, the CR3-X can accept a feed from your audio interface, computer soundcard, or mobile device, while pumping out your mix to the drivers or your favorite headphones.

The CR3-X features a download for ProTools | First and The Musician's Collection plug-in package including 23 high-quality plug-ins with BBD Delay, Eleven Lite, the 304E EQ, and the 304C Compressor.

General Features

For recording, mixing, sound design, gaming, and casual listening

All-wood cabinet with a brushed-metal front panel

3.5mm, RCA, and 1/4" inputs accommodate balanced or unbalanced stereo line-level signal from your audio interface, mixer, soundcard, or mobile device

Front-panel 3.5mm headphone port auto-defeats speaker output

50W of amplification drives the 3" polypropylene-coated woofers and 0.75" ferrofluid-cooled silk-dome tweeters

Speaker placement switch lets you choose which side to use for the on/off/volume control

Includes a 3.5mm to stereo RCA cable for connecting your computer to the speakers, a standard 3.5mm cable to plug in your smartphone, and a speaker cable to connect the left and right monitors

Avid Pro Tools | First and Other Included Software

Avid Pro Tools has been an industry standard in studios and homes for decades. Pro Tools | First (available for macOS and Windows operating systems) is easy enough for beginners yet sophisticated enough for experienced musicians. Get many of the same tools used by your favorite artists and recording studios,

collaborate online with anyone anywhere, and create at the speed of your imagination. In addition to the powerful plug-ins within Pro Tools | First, this mixer comes with the exclusive Mackie Musician Collection featuring 23 fantastic plug-ins:

Avid 304E EQ: Add musical warmth with a treble and bass equalizer with sweepable mid control
Avid 304C Compressor: Tweak the clarity, balance, and rhythmic feel of music with this optical-modeled compressor
BBD Delay: Create delay, chorus, and vibrato effects based on a classic guitar pedal
Black Op Distortion: Add rich distortion based on a classic distortion pedal
Black Shiny Wah: Achieve the famous classic tones of a respected wah wah pedal
Black Spring Reverb: Get the twang and space of a vintage amplifier
C1 Chorus: Emulates a classic chorus pedal
DC Distortion: Dial up a range of overdriven tones with this Avid custom distortion effect
Eleven Lite: Get the sound of popular guitar amps and speaker cabinets
Flanger: Create esoteric sounds with this homage to vintage and modern flangers
Graphic EQ: Sculpt frequencies with ease
Gray Compressor: Add warmth to tracks based on a vintage Ross compressor
Green JRC Overdrive: Get the coveted sounds of a classic IC overdrive pedal
In-Tune: Keep your instruments in tune with this digital tuner
Orange Phaser: Create interesting effects with this phase shifter based on a classic design
Roto Speaker: Recreate the sounds of a Leslie rotary speaker cabinet
Sci-Fi: Add analog synth-type ring and frequency modulation
Studio Reverb: Create natural-sounding reverb and ambient effects
Tape Echo: Add vintage analog delay and chorus effects
Tri Knob Fuzz: Get the Hendrix tone with this fuzz box based on one of the first fuzz pedals
Vari-Fi: Create the effect of audio changing tape speed
Vibe Phaser: Add phase-shift and rotary speaker effects
White Boost: Boost gain without coloring tone

Mackie Big Knob Studio Monitor Controller and Interface

The Mackie Big Knob Studio is a monitor controller and interface that allows you to choose between three audio input sources and two monitor pairs. It can be used for project and professional studios and is designed to increase your workflow for recording and mixing applications.

It features a built-in 2x2 USB recording interface with two Onyx mic preamps and phantom power for condenser microphones. Recording and playback is at 24-bit/192 kHz resolution and the cue mix allows for controlled blending of direct inputs with other signals for zero-latency recording. Choice of recording paths provide flexibility for applications like podcasting and more.

Additionally, other features include flexible source connections, a convenient 1/8" input for your smartphone, dual headphone outs with independent level control, a built-in talkback mic, and 16-segment high-resolution input source metering.

Finally, with its sturdy and built-like-a-tank design, the interface is compatible with all major DAWs on both Mac and Windows platforms. The Big Knob Studio features a download for ProTools | First and Waveform software and The Musician's Collection plug-in package including 23 high-quality plugins with BBD Delay, Level Lite, 304E EQ, and 304C Compressor. To authorize the software, simply input the mixer's serial number on the website.

Professional Source and Monitor Selection

Choose between 3 sources and 2 monitor pairs
Classic Big Knob volume control
Independent trim on all sources and monitor outs
Mono, mute and dim functions
Flexible 2x2 USB Recording Interface
Two boutique-quality Onyx mic preamps including phantom power for condenser microphones
High-resolution 192kHz / 24-bit recording and playback
Cue mix allows controlled blending of direct inputs with other signals for zero-latency recording
Comprehensive Feature Set for Professional Studios
Flexible source connections including convenient 1/8" input for your smartphone

Dual headphone outs with independent level control
Built-in talkback mic for easy communication with artists
16-segment high-resolution input source metering
Professional Production Content

Mackie EM-91C EleMent Series Large-Diaphragm Condenser Microphone

The Mackie EM-91C is an EleMent Series condenser microphone offering sturdy construction and sonic performance tuned for accurate reproduction of vocals and instruments in project studios and commercial facilities. Like all EleMent Series mics, the EM-91C presents an attractive combination of ruggedness, quality sound, and affordability.

The EM-91C utilizes a cardioid polar pattern, which rejects sound behind the mic to reduce the pickup of bleed from other instruments while attenuating room ambience to deliver a more direct, controlled sound. The mic's large-diaphragm condenser capsule operates via phantom power, and the balanced 3-pin XLR output ensures proper connectivity with audio interfaces, external preamps, and mixing consoles. The EM-91C includes a vibration-reducing shockmount and an XLR cable.

Mackie EM-89D EleMent Series Dynamic Vocal Microphone

The Mackie EM-89D is an EleMent Series dynamic microphone offering tour-worthy construction and sonic performance tuned for clear reproduction of vocals and instruments in live stage applications and studio recording. Like all EleMent Series mics, the EM-89D presents an attractive combination of ruggedness, quality sound, and affordability.

The EM-89D utilizes a cardioid polar pattern, which rejects sound behind the mic to reduce the pickup of stage bleed and allow higher gain before feedback. The mic's dynamic moving-coil design requires no batteries or phantom power, and the balanced 3-pin XLR output ensures proper connectivity with stage

boxes, mixers, and portable PA systems. The EM-89D includes a mic clip, an XLR cable, and a zipper pouch.
