NEKTAR MIDIFLEX 4 - USB MIDI zvučna kartica

Šifra: 16112
Kategorija prozivoda: Midi Interfejs
Proizvođač: Nektar

Cena: 8.280,00 rsd

RIGHT PORTS, INSTANTLY.
No driver required: The MIDIFLEX 4 is USB class-compliant, so setup is practically instant! Simply connect the MIDIFLEX 4 to your computer and the ports become available in your DAW software's MIDI settings.

Automatic port detection: Even better, MIDIFLEX 4 also automatically detects if a MIDI In- or Output is connected and displays the setting with its MIDI port LED indicators. So just connect your external MIDI gear and let MIDIFLEX do the rest. The 4 LEDs indicate if a port is configured as In- or Output.

Expand your ports with multiple units: We know that it's never enough – if you need more ports, simply connect another MIDIFLEX 4 for more ports! For instance with 3 MIDIFLEX 4, you could build a system with 4 MIDI Ins and 8 MIDI Outs! And if that's still not enough, you could always add another one...

MIDI MERGE AND SPLIT FEATURES
MIDIFLEX 4 is more than a USB MIDI Interface: In stand-alone mode it can work as a MIDI split- or merge-box. Simply power it from an external power supply and select the mode you want using the dedicated button at the top of the unit. You can use it as a 2-1 merge or 1-3 split box.

Midiflex Mode Switch

CAPTURE YOUR IDEAS –
BITWIG 8-TRACK DAW INCLUDED
MIDIFLEX 4 comes with a license for Bitwig 8-Track. With this DAW you can start producing, performing, and designing sounds like a pro from day one. Bitwig 8-Track includes over 50 software instruments and effects for use on up to 8 audio or MIDI project tracks, and you can use any 3rd party VST® plug-ins you might own, too. The 'Bitwig Essentials Package' comes as part of this package as well, featuring a highly versatile handpicked selection of loops, clips and samples, to make it even easier to get you started.
