Šifra: 16187

Kategorija proizvoda: Dodatna oprema za gramofone

Proizvođač: Pro-Ject

Cena: 1.800,00 rsd

The
drive
belt
takes
the

rotational force created by the motor and applies it to the turntable platter, allowing the platter, and the record with it, to move at the required speed. The replacement belt for the Pro-Ject Genie turntable has a large diameter, and is finished in black or white. Its rounded design allows for minimal contact with the platter, reducing the transmission of resonant forces.

To extend the life of your drive belt, avoid touching it with your hands as much as possible. Once mounted, use the speed key provided with Pro-Ject turntables to change the rung of the pulley.
