

ZOOM ZUM-2 Podcast Mic Pack - Podcast mikrofon

Šifra: 16680

Kategorija proizvoda: Podcast i USB Mikrofoni

Proizvođač: ZOOM

Cena: **14.280,00** rsd

The included ZUM-2 Podcast Mic is a sturdy supercardioid mic that naturally tamps down room noise and focuses the audio capture onto your voice. The headphones give you an accurate accounting of the recording, and won't allow sound to bleed into the audio either. The tabletop stand lets you mount the mic right on your desk, and the USB cable connects the ZUM-2 to both Mac and Windows computers. With the included foam windscreen, you'll guard against plosives, ensuring the audio sounds clean on the way in.

Designed for Podcasting & More

Designed to be sturdy and simple to use, the included mic plugs right into your computer, eliminating the need to work with extraneous analog gear, and ensuring you get a sound well suited for podcasting. But don't stop with podcasting: use this mic for streaming, for YouTube live, and even to record solo-acoustic musical performances.

For Your Computer

The mic works directly with your Mac or PC computer. Simply connect the ZUM-2 with the included USB cable, and you're ready to get to work.

Highly Directional for a Focused Sound

The supercardioid pickup pattern of the ZUM-2 USB mic clearly picks up your voice while rejecting room noise and other unwanted sounds.

Built-In 3.5mm Headphone Jack

Plug the included headphones right into the mic's 3.5mm headphone jack, and you'll be able to monitor audio right from the mic as you record. A handy volume dial lets you adjust the headphone gain.

Included Headphones

The ZHP-2 closed-back headphones provide professional isolation as well as a crystal-clear, full-range sound.

Included Tripod Stand

The height-adjustable TPS-4 Tripod is great at your desk or on the go. The durable metal threading withstands heavy use, while the lightweight folding legs make it easy to pack and take with you.

Included Windscreen

A custom-fitted windscreen protects the ZUM-2 microphone from breezes, breaths, and pops, giving you clean recordings without muffling your sound.

Included USB Cable

The ZUM-2 Podcast Mic Pack includes a 6.6' USB Type-C to Type-A cable for seamlessly connecting the ZUM-2 USB microphone to PC and Mac computers.

Microphone
