With digital 2.4GHz transmission, the Blink100 system offers a stable and impressive line-of-sight range of 50m, achieving an unmatched audio experience for content creators. Press both "+" and "-" at the same time button to turn on/off the noise reduction function. When turns to noise cancellation mode, the Blink100 system indicator static green light removes ambient noise and offers a clear sound.

Turn on transmitters, and connect the Blink100 RX to a device like a smartphone, tablet, DSLR camera, camcorder, etc., transmitter and receiver will be automatically paired. No other tedious operations, just plug and play. With a total weight of less than 16.5g, the Blink100 transmitter is ultra-compact and lightweight. Just clipping the transmitter on the collar is easy to conceal. The Blink100 receiver's and transmitter's built-in rechargeable battery provides up to 10 hours of runtime, which supports all-day recording.
