Polk Audio Signature Elite ES30 White Centralni zvučnik

Powerful & Immersive Hi-Res Audio for Movies, TV, Music & Games

Enjoy movies, gaming, and multichannel music with crystal-clear dialogue and high-resolution, cinematic sound. Polk's high-performance center channel loudspeaker features a Dynamically Balanced acoustic array, precision crossovers and Power Port bass enhancing technology. Hi-Res Audio Certified, Dolby Atmos & DTS:X compatible, and accessibly priced, the ES30 fulfills the Polk promise of great sound for all.

Make Your Entire Home Theater the Sweet Spot

Experience a seamless, lifelike soundstage no matter where you're seated. The Signature Elite ES30's Dynamically Balanced, three-driver acoustic array with phase-optimized, precision crossovers and timbre-matched components, ensures focused dialogue that blends perfectly with other Signature Elite speakers.

Hear More Detail in Music and Movies You Love

The ES30's Hi-Res Audio Certified, Terylene dome tweeter provides crystalline highs (≥ 40 kHz), ideal for high-resolution sound found in Ultra-HD movies, multichannel concert videos, and spatial audio mixed for Apple Music, Dolby Atmos, or DTS:X.

Effortless Bass

The ES30's Polk Power Port pair with two 5.25" Mica-reinforced polypropylene drivers to provide louder, lower, effortless bass, which means you'll hear and feel impactful sound, front and center, the way the director intended.

Dolby Atmos & DTS:X Compatible

With high sensitivity and 4- and 8-ohm compatibility, the ES30 delivers realistic, powerful, and dynamic sound reproduction from nearly any amplifier or receiver, including the latest Dolby Atmos and DTS:X surround sound AVRs.

Built for Pure Sound

The ES30 is designed for you to hear pure sound the way the director, producer, or artist intended. Quiet Cabinet – A strong, rigid, and acoustically inert enclosure built with critically damped Medite MDF and laser-optimized bracing reduces internal standing waves and resonances for less coloration and distortion of your sound.

Low-interference grille – The ES30's anti-diffraction, magnetic grille minimizes sonic interference and can be easily removed to provide a striking look.

Direct connection – Dual gold-plated five-way binding posts ensure the most direct, efficient, and lossless connection possible.
