The
JBL

Studio 660P is a 12-inch PolyPlas cone woofer utilizing a front-firing 12-inch PolyPlas cone woofer with dual down-firing tuned ports. A 500Wrms amplifier provides the sonic impact and a full complement of inputs and controls make for easy system integration. The elegant cabinet design includes a magnifically attached grille and brings an element of sophistication to any room. The Studio 6 Series delivers big dynamics, detailed sound, and powerful bass for true high-fidelity sound.

Top-graded PolyPlas cones

High definition imaging for high fidelity sound.

For those searching for a home audio speaker system that goes above and beyond what they've ever heard, seek no further: The new JBL Studio 6 speaker system is everything your inner audiophile could hope for. Enjoy the top-ranked sound of its PolyPlas cones; marvel at the concert-grade accuracy and power of its acoustics speaker drivers; and get electrified by its HD imaging waveguide, complete with high-frequency compression driver. It features a modern new clean look that's equally stylish and easy to set up. After JBL Studio 6, home listening will never sound - or feel - the same.
