

ZOOM G2X FOUR - Procesor za gitaru

ZOOM G2X FOUR - Procesor za gitaru

Šifra: 17139
Kategorija proizvoda: Procesori
Proizvođač: ZOOM

Cena: **26.000,00** rsd

An 80-second looper function lets you record and play over your performances, and 68 rhythm patterns are included, which can be synced to your loops. An Aux input allows you to play along with external tracks more easily, and output EQ is included on the main outputs for directly controlling your tone from the pedal. With the convenient built-in USB-C support, you can power the pedal with simple USB bus power and control your G2X Four with the Handy Guitar Lab app which provides you with the ability to load, backup, and edit patches as well as use your pedal as a 2-in/2-out audio interface.
