Protect your Novation Launchpad Pro when traveling to and from shows. The Novation Launchpad Pro Case is a durable and lightweight 'shell' for your Launchpad Pro, comprising a bottom section and a lid with Velcro straps that fasten securely but are easy to release. Simply remove the lid and the bottom section becomes a desk tray for your Launchpad Pro. Place the lid below the base to raise the height of your Launchpad Pro. The bottom section also features a cut-out section at the rear to access Launchpad Pro's USB and MIDI ports, and power supply socket.
