This

compact all-rounder relies on excellent sound quality and sufficient performance even for more demanding loudspeakers

A fine sound quality that comes close to tube amplifiers and a high-quality phono input for your turntable are ideally combined. Despite the small size, 5 different source devices can be connected at the same time. The stereo box DS3 offers analog phono and line, as well as lossless aptX streaming via Bluetooth and of course remote control.

Power output	55 watts @ 4 ohms (2 ohms last stable)
Setup	Double mono
Inputs	3x analog, phono, Bluetooth
Bluetooth	4th generation with antenna (aptX capable)
Phono input	Integrated MM & MC input
