## Bowers & Wilkins PANORAMA 3

Šifra: 17224  
Kategorija proizvoda: Soundbarovi  
Proizvođač: Bowers & Wilkins

**Cena: 95.880,00 rsd**

source of

Panorama 3 is a Dolby Atmos-enabled, Amazon Alexa-compatible, home theatre powerhouse in a single, elegant component. Bowers & Wilkins draws on its decades of collaboration with the world's most famous recording studios to deliver stunning sound. Wall bracket included.

**Elegant and understated  
Panorama 3 looks good  
in any environment**

**Immersive sound from a single speaker**

Thirteen individual, painstakingly positioned drivers, including twin subwoofers, powered by a total of 400 watts of amplification. This is what allows Panorama 3 to deliver the most immersive, most convincing spatial audio ever heard from a sound bar.

**Because you want sound all around you**

Thanks to upward-firing drive units, each housed in an individual acoustic chamber, Panorama 3 projects tightly focused sound upwards onto your ceiling to deliver the truest, most immersive Dolby Atmos spatial audio effect.

**Connected, smart, intuitive and effortless**

Enjoy Bluetooth aptX™ Adaptive, AirPlay 2, a host of streaming services and hi-res audio too.

**Easy to set up, simple to use**

The intuitive app ensures easy network set-up, and HDMI eARC means simple connectivity.

**All the sound you need from one elegant component**

In addition to twin Dolby Atmos units, Panorama 3 has nine more drivers and two subwoofers. Outstanding performance is assured.

**Size & weight**

Dimensions	Height: 65mm (2.5in) Width:1210mm (46.6in) Depth: 140mm (5.5in)
Net weight	6.5kg (14.3lb)
