

## audiolab 9000 CD Transport Aluminium Siler

**Built  
For**

Šifra: 17340  
Kategorija proizvoda: CD Plejeri  
Proizvođač: Audiolab

**Cena: 119.880,00 rsd**

### Accuracy

Audiolab has designed the 9000CDT to escalate CD playback. Ensuring a smooth experience, a data buffer has been integrated into the optical system to support signal purity. The coaxial output has also been fitted with a differential line driver to achieve a faithful, low-noise signal between accompanying equipment.

### Digital Playback

The Audiolab 9000CDT isn't just for CD playback. A USB-A input can be found on the rear of the unit, allowing you to connect external storage devices for instant, hi-res compatible playback. Enjoy formats including MP3, WMA, AAC and WAV, with file navigation displayed on-screen.

### Quality Experience

CD reading is reliable, with a low-friction load tray, high-spin-velocity and read-ahead feature helping to play even partially scratched discs. Sharing the uniform 9000 series design, this CDT features a 4.3" colour information and menu display. The aluminium chassis also combats reverberations leaching into your music.

### Key Features

- Authentic CD experience
- Electronic data buffer promotes accurate playback, with read-ahead feature helping to play damaged discs
- Temperature-compensated crystal oscillator controls uniform master clock signal
- Output signal strength is bolstered by differential line driver
- Reliable playback thanks to high-velocity disc spin, with low-friction tray and aluminium chassis countering operational reverberations
- The transport is mounted in an electromagnetically shielded enclosure
- USB-A input for audio playback from external storage devices
- Compatible with MP3, WAV, AAC and WMA files formats
- Track information available on-screen for both CD and USB sources
- 4.3-inch colour display available for comprehensive menu navigation
- 12v trigger link for system integration

### What's in the box?

- The Audiolab 9000CDT
- x1 IEC power cord
- x1 Remote control (Requires x2 AAA batteries, not included)
- x1 Instruction manual

### Dimensions
