Kategorija proizvoda: Wireless Slušalice

Proizvođač: Mark Levinson

Cena: 107.880,00 rsd

Designer sound and build

The 5909's have been meticulously designed from both sound and comfort perspectives for a luxurious experience in both sonic response and feel. A premium leather headband and replaceable leather ear cushions offer up exceptional comfort with an anodized aluminium frame and automotive-grade metallic earcups gifting longevity and stylish looks from your headphones. 40mm beryllium coated drivers bring you well-balanced, natural audio and when combined with HARMAN curve acoustic profiling and the hi-res audio certification, you can rest assured that your favourite music will always sound its best.

Crystal clear calls

Being on the go, you can't always control when an important call is going to come in but the ML5909s have you covered. A 4 microphone set-up allows you to be heard in most environments and with Smart Wind Adaption, you'll never need to worry even when caught out in the elements. Near-perfect audio is assured for both calls and music meaning you will be able to hear and be heard. The mic set-up also allows for Ambient Aware mode so you can temporarily halt the noise-cancelling and be given full situational awareness when you need to cross the road and be aware of your surroundings.
