

PRO-JECT Q Up Pi

Šifra: 17444

Kategorija proizvoda: Ostalo

Proizvođač: Pro-Ject

Cena: **7.080,00** rsd

The Q UP is a high precision device that safely lifts your tonearm at the end of the record. The Q UP can be installed in minutes, without tools, and is designed to fit on most manual turntables. Based upon a trigger and lift design, now reborn and modernized to work with either classic or contemporary turntable / tonearm combinations. The Q UP can be configured for a variety of tonearm heights, thicknesses and shapes. The Q UP only interacts with the tonearm at the end of record and does NOT adversely effect the tonal quality of your system in any way. No need to worry about falling asleep with your record playing or forgetting it is playing if you get distracted.

Lifts tonearm, when it moves to the end of a record

Extends stylus life

Suits nearly all tonearms and manual turntables

Includes three stackable platforms for turntables with thick platters

Adjustable trigger sensitivity

No AC or battery power needed

Easy to mount, no additional tools necessary!
