Perfect solution for stereo recordings

The SPU #1 models, with their universal connector, ensure the ability to mount the units in a wider range of tonearms with universal (SME) mount.

With their linearity and full bodies, the SPU #1 models are a perfect solution for the playback of stereo recordings.

Sonically, the SPU #1 models are genuine SPUs, known for their full-bodied and powerful music image, minimum of intermodulation distortion and an impressive channel separation.
