

Electro Harmonix Deluxe Memory Boy Analog Delay

Šifra: 18022

Kategorija proizvoda: Pedale

Proizvođač: Electro Harmonix

Cena: **20.280,00** rsd

Circuit: AnalogAnalog w/ Digital Control

Bypass: True Bypass

Audio: Mono

Effects Loop: Yes

Power Supply: 9.6VDC-200mA power adapter included

Dimensions (in): 5.75 x 4.75 x 2.5

Current Draw: 100mA

Year Released: 2010

The EHX Deluxe Memory Boy Analog Delay's Quality ICs deliver warm and organic analog tones while "tap tempo" allows you to always be in sync with the groove. Choose five note divisions for metronomic variances. Sweet modulations can add lush ambience while the expression pedal input gives you external control. The Deluxe Memory Boy is the most flexible, affordable analog delay ever designed.

Tap Tempo

Tap Divide timing subdivisions

Expression pedal input for flexible control

Triangle and square wave modulation with adjustable rate and depth for superior chorus, vibratos and sweeps

Total analog bucket brigade design

Built in EFX loop

Total Analog bucket brigade design
