

Electro Harmonix Good Vibes Analog Modulator

Šifra: 18027

Kategorija proizvoda: Pedale

Proizvođač: Electro Harmonix

Cena: **17.880,00** rsd

Circuit: AnalogAnalog w/ Digital Control

Bypass: True Bypass

Audio: Mono

Power Supply: 9.6VDC-200mA power adapter included

Dimensions (in): 4.75 x 4 x 2.25

Current Draw: 45mA

Year Released: 2015

The EHX Good Vibes recaptures the iconic chorus/vibrato effect of the 1960s in an updated pedal with features designed to meet the needs of the modern player. Like the original Uni-Vibe®, it uses photocells to create chorus and vibrato with a warm, undulating, liquid groove for a sound and response that's true to the classic design. Boosted power rails provide 21st century definition and headroom, and an expression pedal input puts free-form control for speed or intensity at your feet. True bypass, too. Very groovy!

Selectable Chorus or Vibrato delivers classic 1960's tone and vibe

Simple control set: Volume, Intensity, Speed

Expression pedal control of Speed or Intensity

Boosted power rails for extended headroom and definition

Always-on Speed indicator

Rugged and compact die-cast chassis

True Bypass

Power adapter included
