Completing the powerful trilogy forged by the B9 and C9 Organ Machines, the EHX KEY9 emulates the world's most coveted electric pianos and more. With 9 presets, you can transform your axe and lay down a cool "Riders on the Storm" style groove or some hot funk ala "What'd I Say!"

The KEY9 transforms the tone of a guitar and/or keyboard into a convincing electric piano emulation, including several variations of the classic Rhodes and Wurlitzer sounds. The KEY9 also features lively recreations of vibes, mallets, an organ, and even steel drums! Based on the popular EHX B9 and C9 pedals, the KEY9 swerves into electro-acoustic territory via knobs that control DRY and KEY volume, as well as preset-specific features that are adjusted with the CTRL 1 and CTRL 2 knobs.

Take it from Mike Matthews who says: "You'll dig the way the KEY9 turns you into a Rhodes Scholar!"
