### **Seamless elegance**

The sealed cabinet design facilitates optimal placement, while the contemporary design seamlessly blends with the room's decor.

### **Music Integrity Engine® (MIE)**

KEF's proprietary DSP (Digital Signal Processing) algorithms ensure that every component of the subwoofer works in perfect harmony. Features such as iBX Intelligent Bass Extension provides even deeper and precise bass at any listening level.

### **Feel the force**

The Kube features a front-firing long throw driver with a large cone area and high excursion, delivering higher output at lower frequencies. Its efficient and cool-running 300W Class D RMS amplifier further enhances performance.

### **Versatile immersion**

The mid-sized model in the Kube range, offering easy placement and is ideal for elevating your movies, music, TV and gaming experience.

### **Effortless wireless integration**

The KW1 enables optimal placement of the Kube without being limited by cables. High-quality wireless transmission ensures the delivery of every nuance and impact from your favourite movies and music.

### **Well connected**

Kube offers versatile connection options, including KEF SmartConnect and speaker level inputs, making connecting into any system a breeze.

### **3 room position EQ options**

The intuitive preset options ensure excellent performance from Kube no matter where in the room it is placed.

### **Multiple power modes**

'Auto wake up' detects audio signals for instant readiness, 'Always on' mode keeps it ready to play instantly, and '12V trigger' provides automatic wake-up.

**There are subwoofers...  
and there are KEF subwoofers.**

Take home the immersive power of deep detailed bass with unrivalled acoustic accuracy that drops you right into the heart of the action. Over 60 years of innovation in crafting award-winning speakers has made us an authority in sound, and our subwoofer range brings home the visceral experience of modern immersive sound like no other for movies, gaming, music, and streaming.
