

Primare SC15 Prisma MKII Black Mrežni plejer

Šifra: 18486

Kategorija proizvoda: Network Plejeri

Proizvođač: Primare

Cena: 215.880,00 rsd

Technology

SC15 Prisma MK2 continues a Primare tradition of delivering astonishing performance from compact

and elegant devices for easy installation into virtually any living environment, and with the three-quarter-sized cabinet of SC15 Prisma, even greater possibilities open up for providing the highest quality music performance and access to any and every room in the house.

SC15 Prisma MK2 is a full-featured network player and digital to analog converter, providing digital to analog conversion with up to PCM 384kHz and DSD 256 capabilities, as well as complete digital media access and system management by way of the Prisma connectivity and control technology.

With selectable fixed or variable output, SC15 Prisma MK2 can serve as an advanced network player for any system in fixed mode, or connected directly to a pair of powered speakers for a compact high performance stereo system in variable.

SC15 Prisma also includes WiSA high resolution wireless speaker connectivity with WiSA enabled high performance powered loudspeakers and subwoofers, offering an additional output option for this most versatile performer.

Additionally, with WiSA speaker connection the analog output can be configured for wired subwoofer output.

Prisma - Network and Multiroom Technology

Prisma is a bundle of technologies that provide the broadest range of network music player features and functionality. Essentially created to be a streamer that would allow everyone, and everywhere, in the household to explore, discover, and share the deeply satisfying experience of high-performance music playback - Prisma provides multi-room/multi-zone connectivity and control of stored and streamed media, whether wired or wireless, all managed from mobile devices through the dedicated Prisma system control app.

In addition to AirPlay 2, Bluetooth®, Roon Ready*, and Spotify Connect®, Prisma features Chromecast built-in, a unique streaming portal allowing effortless direct connection to hundreds of streaming applications and services, including voice control, for the best possible performance and user experience.

*with future update

New to the SC15 Prisma MK2 is automatic Room and Manual EQ function

using a program built-in to the Prisma application. The EQ function can be used with any iOS mobile device, while Android devices require the use of the Zen microphone (currently on back-order until March 2024).

Room EQ automatic optimisation method is easy to use. During the measurement sequence, the speakers will play back pink noise for 60 seconds while the iOS device or Zen mic is moved around the room in large circular motions. The EQ function samples all positions in the room to identify each room mode.

When the measurement sequence is complete, the speaker compensation will be automatically calculated, and a bass filter will be applied to the system to counteract boundary effects, compensating for the interference caused by the room.

Once the room has been measured and the system calibrated using the automatic Room EQ, it is possible to manually adjust the speakers' response to meet personal preferences.

The look and feel of Scandinavia

We believe that every aspect of our products – the way they look, the satisfying feel of the controls – contributes to the overall experience of living with Primare. As a result, Primare products exude the hallmarks of Scandinavian design – simple, elegant designs, with approachable and easy to understand functionality.

An example of this is the compact, essentially three-quarter sized, of the 15 series, cabinets creating the sense of perfect proportions being just right for allowing placement within any living environment – or as we say lagom, not too much not too little, everything in balance, proportion, and harmony.

Feature	
DAC	ESS ES9028Q2M
Analog Inputs	- 2 x stereo analog pair input (RCA)
	- 1 x digital input (RCA)
Digital Inputs	- 3 x Toslink (digital inputs)
	- 1 x USB-B (digital input)
Analog Output	- 1 x stereo variable analog output (RCA)
Digital Output	- 1 x digital output (RCA)
Control and Connectivity	- C25 remote
	- IR system control
	- IR (3.5 mm in/out)
	- RS232 (outboard system control port)
	- 12V Trigger (in/out)
	- 1 x USB-A
	- 1 x Ethernet

Feature	
Network Connectivity	- WiFi
	- Prisma (connectivity and control)
	- AirPlay 2
	- Bluetooth
	- Chromecast built-in
	- Roon Ready (with future update)
	- Spotify Connect
Physical Specifications	- Weight: 6 kg
	- Dimensions: 350 x 73 x 329 mm (WHD)
	- Finish Black
