Our new line-up includes 10", 12", and 15" speakers, each designed with precision and care. The 15" NEO speaker, housed in an innovative poplar ply enclosure with an interchangeable grill (available in Silver or Red cloth), represents the pinnacle of our efforts. It's meticulously braced and wadded to eliminate unwanted resonances, making it a 300-watt powerhouse.

What sets the 15" NEO apart is its three-way variable high-frequency horn, selectable via a convenient rocker switch on the universal Ashdown back plate. Sealed for powerful attack, clear definition, and robust bass frequencies, this speaker is a game-changer. Its versatility shines when used alone or paired with another cabinet, bolstering your stage presence with authority.

For those who demand power and a wide frequency range, our NEW PRO NEO BLUE LINE 15" speaker delivers. Rated at 300 watts at 8 Ohms, the ABM-115H PRO NEO joins our line-up as a fantastic addition. Elevate your sound experience with Ashdown.

Looking at the popularity of our cab offering and that of others on the market 15" speakers have made some what of a revival in the bass market over recent years opting for a more vintage feel but delivering a full range of frequencies.

The 15 is a great speaker added to our new compact poplar ply enclosure with high frequency horn unit it is truly a very versatile cab rated at 300watts at 8ohms.

We couldn't launch a range of bass cabs without looking at a 15" speaker so once again looking at everything that makes a great 15 it needs power and a wide range of frequencies.
