What sets the ABM-210H apart is its

versatility. Featuring a switchable horn tweeter (with Hi, Low, or Off options), it grants you complete control over the high-end frequencies. These speakers offer an impressive combination of power, transparency, and deep low-end response without sacrificing the mid-attack and high-end clarity essential for modern bass tones. Whether you're hitting small venues or commanding large clubs, the ABM-210H is prepared for action.

Moreover, this bass cabinet is a testament to durability, making it the preferred choice of many world-renowned bands. With a 300W power handling capacity at 8 ohms, front porting for maximum dispersion, and a compact design, the ABM-210H Compact Bass Cabinet combines function and style seamlessly, making it the perfect solution when space is at a premium.

Ashdown ABM-210H Compact Features:

- Ruggedly built bass speaker cabinet delivers clear and defined low end
- Handles 300 watts at 8 ohms
- Constructed of high-grade birch plywood
