- 3-Band EQ with MID freq control for each channel
- Headphone output + Master output
- Eurorack compatible
- 12-in / 4-out Audio interface
- 4 AA battery power operation or USB power

PLENTY OF INPUTS

- A. INPUTS | 2 XLR/TRS combo inputs plus 4-stereo 1/4" inputs.
- B. MONO x2 | Get two additional mono inputs instead of a stereo input.
- C. USB RETURN | USB Audio Return for backing tracks and other audio from a laptop.

THE RIGHT OUTPUTS

- A. AUX OUTPUTS | Send custom mixes to monitors, effects, or external devices.
- B. MAIN OUTPUTS | Connect to studio monitors or live speakers
- C. HEADPHONE OUTPUT | Headphone output with volume control.

LOADED WITH EFFECTS

Enhance your mix with onboard effects including 3 Reverbs, Delay, and Echo.

ADVANCED COMPRESSOR

The L6's main output compressor increases loudness while adding natural saturation. With 32-bit float the audio will never clip, even at high volume.

LED CONTROL KNOBS

Adjust levels and parameters quickly and precisely with the LED control knobs.

SOUND PADS

Trigger pre-recorded backing tracks or samples using one of the four sound pads. You can also sample in real time for live jams and performances.
