JBSYSTEMS BRITEQ DMS 26

Šifra: 9270
Kategorija prozivoda: DMX Kontrole i Dimeri
Proizvođač: JBSYSTEMS

Cena: 28.680,00 rsd

Description

The perfect all-in-one solution to secure your DMX-installations: MERGER + SPLITTER + BOOSTER

The merger function combines 2 DMX-signals in different ways: 2 DMX-inputs + 6 DMX-outputs, each equipped with 3pin and 5pin XLR-connectors.

HTP: the highest value of 2 identical channels from 2 DMX-signals will have priority.

Backup: when the DMX-signal on input A fails, the DMX-signal in input B takes over immediately.

Merger: DMX-signals from 2 different controllers can be combined and send over 1 cable, you can choose the start address of the second controller.

100% electrical isolation between all in/outputs!
The booster function analyses the incoming DMX-signal and builds it back up from scratch to make it perfect for further use.

The splitter function distributes the DMX-signal(s) from the input(s) over 6 identical outputs that are 100% isolated from each other: problems that occur on 1 output will not influence the other outputs!

The timing of the DMX-outputs can be adapted from 23ms to 45ms, increasing compatibility while connecting "slow" DMX-devices to "fast" DMX-controllers.

Null: no DMX signal on the outputs
Clear: set the DMX values on all outputs to zero.

Output behavior can be selected when suddenly both DMX-inputs fail:

Hold: keep the last DMX values on the outputs.
Easy setup via 4digit LED display

Technical Information

Power Input: 230Vac / 50Hz.

DMX refresh rate: 23ms (44Hz) to 45ms (22Hz)

Weight: 2,9kg

DMX in/outputs: 3pin + 5pin XLR

Size: 482 x 44 x 150mm (19"/1U)
