

FOCAL Aria 926 Premium Walnut Podnostojeći Zvučnik

Šifra: 12550

Kategorija proizvoda: Podnostojeći Zvučnici

Proizvođač: Focal

Cena: **107.880,00** rsd

The Aria 926 floorstanding speakers are part of the Aria 900 high fidelity speaker range. The 900 range feature speaker drivers with Flax sandwich cones, TNF aluminium and magnesium inverted dome tweeters with Poron suspension, injected zamak baskets, carefully designed cabinets and crossovers. Focal have spared nothing to ensure that owners enjoy maximum listening pleasure.

These luxurious speakers embody the home 3-way floor standing loudspeaker. All kinds of music lovers will be thrilled with these striking speakers and their acoustic qualities. The Aria 926 is by definition an affordable audiophile loudspeaker. It is ideal for rooms measuring from 215ft² (20m²) and from a recommended listening distance of 10ft (3m).

Image is not set or type unknown

TNF Tweeter

For the TNF tweeter, Focal have brought two major evolutions to their aluminium/magnesium tweeter. The suspension between the dome and its bracket uses Poron, a material with shape memory. The inverted dome's spatial characteristics and very low directivity already make it greatly superior. The frequency response has a variance of +/- 0.5 dB. This performance

guarantees an incredibly stable sound stage which makes the listening position much less critical.
Flax Cone

Image not found or type unknown

Flax Cone

Focal cones are made of high-quality flax fibres core enclosed by two thin layers of glass fibre. They satisfy the key criteria of a high performance diaphragm high internal damping, high velocity of sound and high flexural rigidity. The cones are characterised by their natural sound, with low colouration, their richness of reproduction in the midrange register and their tighter bass.

Sandwich Technology

Image not found or type unknown

Sandwich Technology

Flax is twice as light as fibre glass, because the fibre is hollow. It is aesthetically beautiful and also has very low elasticity which makes it ideal to increase the flexural rigidity of a sandwich structure. Moreover, it can be obtained in non-woven bundles of considerable diameter and it

can therefore
produce the
thickness
required for a
sandwich.
Aria Design

Aria Design

Aria has been
conceived as an
elegant piece of
home furnishing;
simple, with
great stature,
quality materials
and soft shapes
which capture
the light and
resist the
passage of time.
The glass on its
upper face for
strength, the
leather finish to
its front face for
its absorbent
and acoustic
diffraction
qualities.

"These new
floorstanders are
an unqualified
success; I really
enjoy my time
with them and I
would
recommend
them to anyone
in the market for
such a thing.
With power,
passion yet
sophistication
and breeding,
there's a lot to
like here."
