iSolution technology allows synchronisation of different types of intelligent iSolution fixtures via either a custom-built iLead DMX-512 controller or in stand-alone mode. iLead (Integrated Lighting System) allows fixtures to be linked and work in synchronisation, regardless of type, including iLead-equipped scanners, moving heads, and colour changers. The iLead controller can also remotely set the DMX addresses of the fixtures. All units are also controllable via any universal DMX-512 controller. Conversely, the iLead controller is a universal DMX-512 controller and can be used with non-iSolution fixtures.

Features:

Control: DMX 512 - 11/8 channels (switchable)

Setting and addressing : 4 digit LED display

LED display with on/off setting function

Data in/out: Locking 3-pin XLR iSolution operation

Consistent DMX configuration enables iMove to be linked with iRock and iShow.

DMX address can be set remotely by iLead controller. No need to calculate the DMX channels of each fixture in the chain

When the DMX signal is off, the lights will switch to Master/Slave mode automatically

Easy installation, easy addressing, and easy operation

Pre-programmed function

Automatic switching between music trig or auto trig mode

Master/ Slave mode

Built in dynamic lighting shows for instant operation.

User friendly Easy Controller: Enjoy many lighting shows at your fingertips

Pan: 540 degrees Tilt: 270 degrees

14 gobo's plus open with shaking effect

Blackout, 0-100% dimmer and high speed variable strobe

High quality optical lens, dichroic colors and gobos

Beam angle: 14 degrees

Specification:

Power supply: 240v

Lamp: ELC 24v 250w

Replacement lamp: Lamp11

Dimensions: 276 x 266 x 369mm

Weight: 10kgs
