COPPER DOWN-FIRING WOOFER

Injection Molded Graphite (IMG) woofers are exceptionally light while being extremely rigid – providing remarkable low frequency response with minimal cone breakup and distortion. The down-firing design of the R-8SW improves the low frequency response with minimal effort.

R-8Sw Lifestyle 1 Klipsch R-8Sw Lifestyle 1 type unknown

A COMPACT DESIGN

At only 13.25" high and 11.75" deep, the minimized stature of the R-8SW makes it the smallest of all Klipsch subwoofers. Designed to be incredibly flexible in any current or future room layout, while producing chest-thumping bass.

The R-8SW is finished in a sleek brushed polymer for a contemporary aesthetic and seamless integration into your home décor.

TAKE TOTAL CONTROL

Low-pass crossover and phase controls allow you to blend the subwoofer's low-frequency tones with other Klipsch speakers as well as customize your ideal level of bass.

The Line/LFE inputs ensure compatibility with old and new receivers.

High Power All-Digital Amplifier with 150 watts peak

Torsion & Lightweight 8 "Copper Spun IMG Membrane
