

INVISION LED PIPE RGB B-Stock

Šifra: 3020
Kategorija proizvoda: Ambijentalna Rasveta
Proizvođač: INVISION

Cena: 3.000,00 rsd

1 or
more
LED
PIPE
tubes
(can
work

standalone or can be connected to the dedicated LED PIPE controller)

Each LED PIPE is split up in 16 sections for maximum flexibility while programming patterns!

4 program run modes: auto mode (adjustable speed), Sound mode, dB mode (VU-meter), hold mode.

Specially shaped base makes it possible to hide all connection cables nicely behind the units!

Can be easily fixed to walls and ceilings with the supplied wall brackets.

Extended life span: 50.000 – 100.000 hours

Optional signal extension cables: 1m, 5m or 10m available.
