Martin Audio Blackline X118

The loudspeaker shall be a compact subwoofer consisting of one 18" reflex-loaded, long-excursion, low frequency transducer.

The on-axis frequency response shall be 42Hz-150kHz +/- 3dB and the loudspeaker shall produce a maximum SPL of 137dB peak calculated at 1 metre. Power handling shall be 500W AES, 2000W peak. Rated impedance shall be 8 ohms. The rear connector panel shall be fitted with three NL4 type connectors and the loudspeaker shall be operated in conjunction with a dedicated electronic controller.

The enclosure shall be made from plywood and finished with a black textured paint. Optional white and RAL colour finishes shall be available to special order. The enclosure shall be fitted with a pole-mount socket and M10 threaded inserts for eyebolt suspension. Provision shall be made for the fitment of castors and the drivers shall be protected by a perforated steel grille.

Dimensions (W x H x D) including feet shall be 530mm x 669mm x 640mm (20.9in x 26.3in x 25.2in).

Weight shall be 33kg (72.7lbs).

The loudspeaker shall be the Martin Audio X118.
