With a response of 48Hz-150Hz \pm 3dB, the ultra-compact size of the CSX112 makes it an ideal partner for CDD Series systems where space is at a premium or where the subwoofers need to be hidden. The enclosure is constructed from high-density MDF and has an impact-resistant finish, while the driver is protected by a rigid perforated steel grille, which is pre-curved to withstand physical damage. Finished in black (RAL9005) or white (RAL9016) textured paint as standard, the CSX112 can be supplied in any RAL colour to order, and it can be supplied fitted with optional flying points. When used with CDD full-range systems, crossover and EQ functions can either be performed by the DX0.5, DX1.5 and DX2 system controllers, or by an MA Series amplifier with onboard DSP option.
