CUE IT UP

The quality audio splitter for TRAKTOR DJ: Pre-listen to your next track for crowd-worthy, flawless mixing on mobile DJ setups.

DJ ANYWHERE

TRAKTOR DJ CABLE lets you pre-listen to your next track before it hits the audience and keeps you ready for action anywhere, anytime. When used with [TRAKTOR DJ](#) or [TRAKTOR PRO 3](#), TRAKTOR DJ CABLE splits the audio from your virtual decks, allowing you to mix like a pro.

Simply connect TRAKTOR DJ CABLE to your iPad, iPhone, or laptop, activate headphone cueing in TRAKTOR DJ, and take the party wherever you go.

NO COMPROMISES

TRAKTOR DJ CABLE is made with silver-plated, oxygen-free copper on the inside and gold-plated mini jack connectors at the ends for optimum audio clarity.

Designed by the creators of TRAKTOR, TRAKTOR DJ CABLE provides a solid base for connectivity with any sound system and is designed for perfect integration with TRAKTOR DJ or TRAKTOR PRO 3. TRAKTOR DJ CABLE also works well with your other favorite DJ apps and software.

SETUP EXAMPLE

TRAKTOR DJ CABLE connected to iPad. Amplifier connected to Master output for audience. Headphones connected to Headphone output for pre-listening.
