Q 3060S is a slimline active subwoofer with a 200mm driver and a powerful 150W amplifier is wall-mountable with an optional, dedicated wall bracket or can be floor-mounted using rubber feet or the spikes provided. All of the controls and connections are hidden behind a magnetic hatch with a down-facing port for discrete cable runs. The Q 3060S is among the slimmest subwoofers available but can still deliver every nuance of an acoustic double bass or rumble of a cinematic explosion.
