

RELOOP SHP-8

Šifra: 12811
Kategorija proizvoda: DJ Slušalice
Proizvođač: Reeloo

Cena: **9.960,00** rsd

STURDY, HIGH-GRADE CONSTRUCTION WITH ALUMINIUM AND GUN METAL FINISH

Pluggable cable connections are easy to exchange, guaranteeing high flexibility during use. The SHP-8 uses a high-quality 3.5 mm stereo jack cable with gold-plated plug. The one-sided cable connection is especially durable and the spring-loaded bend protection is designed to avoid cable breakage. Thanks to its sturdy aluminium construction, the SHP-8 is robust and hard-wearing. Available in anthracite grey with gun metal finish. In addition, a noble velvet bag for gentle storage of the headphones and a gold-plated adapter to 6.3 mm stereo jack are included.

BALANCED SOUND WITH BASS ACCENTUATION TECHNOLOGY

The balanced sound characteristics are defined by an especially neutral and detailed reproduction of the whole frequency spectrum. Bass Accentuation Technology allows you to boost the low frequencies by +3 dB or +6 dB, making it easy to adapt the SHP-8 to different applications.

SHP-8

Professional over-ear headphones for studio and monitoring
Sturdy high-quality aluminium construction with gun metal finish
Bass Accentuation Technology: Low frequency boost adjustment

FEATURES

Professional over-ear headphones for studio and monitoring application
